CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Process of planning before delivery of the curriculum - Effective curriculum delivery begins at the stage of the formation of the curriculum based on the needs of the industry and to match the vision, mission of the institute to reach out to the community. The curriculum at the undergraduate level has been standardized to be consistent with the norms of the University protocol and prescribed format. The TY B.Sc curriculum revision focuses on entrepreneurship and extension with practical training inputs and skill development. The post graduate curriculum has been revised to make it more applicable in the industry and to include current concepts with global relevance as well as with a strong research emphasis. Prior to revision, feedback was obtained from the stake holders for required inputs and from the experts in the field, for current and anticipated industrial trends, following which the curriculum was revised after intense deliberations. Process of Effective delivery - Further planning for effective delivery is ensured by efficient work load distribution with a balance of theory and practical periods for the faculty. The faculty has to plan and document a detailed work plan based on topic intensity and time availability at the commencement of the term, for effective completion of the syllabus. If required, extra lectures are conducted across all levels for effective completion completion of the syllabus. Students who find he syllabus challenging are given special attention to ensure that they are abreast if the class. The syllabus is made available to the learner for ready reference. Effective delivery has been possible with the drafting of a detailed curriculum at the departmental level, the provision of and up to date library, relevant reference books and resource material and substantiating teaching efforts with seminars, conferences and guest lectures for students at various levels.

Multiple methods are employed to make the classroom experience relevant and applicable like, innovative audio – visual aids and interactive life and application based lectures. The process of sourcing, obtaining, documenting curricular feedback of all stakeholders and acting upon the obtained feedback is an important link in ensuring effective transaction of the syllabus. The feedback from multiple stakeholders have been taken and communicated to the various departments via the IQAC which then led to drawing up action plans as well as its implementation. The IQAC has put in motion a method of taking a detailed curricular feedback across all levels. The computed results are shared with IQAC and the Governance as well as the departments. The departments after due deliberations, decide to act on it if relevant, and make necessary additions to teaching plan in the present and the following academic year respectively.

Feedback Obtained
<p>Feedback on overall functioning of the college :- It is based on the learning environment of the college, canteen facility, functioning of anti-ragging cell, counseling center, sports facility, infrastructural facilities etc. Teachers feedback (Teaching and Learning process) – This feedback covers teaching, learning process, punctuality, communication skills, approach towards the students, sharing of innovative ideas etc. We have emphasized on teachers innovativeness, use of ICT in teaching methodologies interactive teaching and students involvement in learning. We collect individual teachers feedback and analyzed it. The analysis is reported to the head of the institution, IQAC, management, members for corrective measures and it is communicated to the individual teacher for further improvement. Parents feedback is based on overall development of their ward and about learning environment in the college as well as imparting value based education in their wards. We have also taken feedback from our Alumni. Whose feedback is based on role of the college in the development of students personality and employability, academic excellence. Also how the institution has helped them to acquire the life skills. Teachers feedback is taken on their views about the curriculum provided by our affiliated University. Also their suggestions on the curriculum are submitted to the parent University. Employers feedback:- We are also taking the feedback on the current curriculum by the employers (Industry experts) and their views as per the current scenario. Placement cell also takes cognizance of this feedback while organizing training sessions. As this feedback system is fully on line system, our students and stakeholders can fill the forms at any time with their own computers, mobiles under stress - free environment. Timely</p>

corrective actions are taken on the feedback given by students. Instructions are given about the food quality to the canteen contractor. Induction programs were organized for first year students as an action taken on the feedback received.

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

The college is affiliated to the University of Mumbai and is expected to follow guidelines set by the University for evaluation of students performance throughout the academic year. As per the University rules and regulations end semester examinations and evaluations are conducted. This year, according to the University directive all the undergraduate courses had one semester end examination and there was no continuous internal evaluation. However, teachers informally assessed students understanding level through discussions, question answer sessions and tests during the theory and practical class and gave extra inputs to those who needed them. At post graduate level, there was an internal component of forty percent which was used to evaluate students on the basis of their performance during preparing for assignments and presentations, projects, quizzes class participation, etc. Post graduate students were also assigned marks for their class participation.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The academic calendar is a very useful document, which contains the most important dates to guide the teachers and students. Our academic calendars provide important information about teaching dates, examination dates, extra co-curricular activities and semester based examinations. Before the commencement of every semester respective departments prepare a detailed study plan, assignments for the individual teachers and the number of classes allotted to each course. On the basis of this the routine sub committee of the teachers. Committee prepares in detailed time table and academic calendar for the entire semester. Finally this is distributed to the departmental teachers and the students and also may available on college website. The effectiveness of the process is maintain through effective monitoring by the Principal / HOD of various departments. The Principal / HOD sees to it that all departments follows academic calendar. The college has a vibrant culture of instilling in inquisitiveness and scientific temper among the students through the number of activities.

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 – Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The principal is the Head of the institution. Together with the IQAC coordinator and administrator, he guides, assists and coordinates the implementation of various decisions. All heads of departments(HODs), coordinators and staff are members of statutory / non statutory committees and are actively involved in the decision making process. Most of these committees also include students and administrative staff. Active involvement of all committee members enable development of and strengthening of leadership qualities. Faculty members are involved in academic decision making. College has the development / management committee comprising of President, Principal. Secretary of M.S.P. mandal, department HODs and some staff was involved. The committee meets twice in a year. The management of the college is very involved in the functioning of the college. The President of the Governing body periodically meets the Principal, administrative and support staff, teaching staff and students. Hence the college follows decentralization and participative management. Two practices that illustrate this are discussed below: Infrastructure based on perceived or anticipated needs identified by the management team, which meets and discusses the same e.g. building maintenance, electrical rewiring of the building etc., the management team met and drew up a tentative plan and budget. This proposal was then discussed with the governing body of G. R. Patil college. After discussion and approval the team discussed and sought suggestions regarding the implementation with the principal. Where required suggestions were made by teaching and nonteaching staff. A feedback was taken by students about their perceived needs for electrical points. The infrastructure team (including administrative and supportive staff) were involved in the implementation and supervision of the rewiring. Strategic

planning - It was initiated by the management with the view to involve all stakeholders in planning for the improvement of the college. This suggestion was discussed with the principal and their views were shared with the College Development Committee. The members decided to take this forward and workshop was planned. Plans were drawn up to improve some areas, strengthen others and chart new programs for the all round development of the students and staff.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

Best Practice I:- 1. Title of the Practice:- Use of learner - centered, participatory, innovative teaching learning methods. The objective of teaching learning process as are follows:-

- To engage students in the learning process.
- To respect the learner as an active participant as apposed to a passive recipient.
- To encourage cooperative learning.
- To empower our students through teaching learning activities that help students build self confidence.
- To respond to students in smaller groups and individually as far as possible rather than as "a class" of students.
- To enable students to make connections between ideas in text books and the real worlds that they are experiencing in Mumbai / Tribal - Rural areas outside Mumbai / other parts of India.
- To have students co-construct knowledge and take ownership for ideas.
- To support students in thinking, problem -solving, and in specialized knowledge and skill development.
- Most importantly, to enable learning.

2. Accordingly, teachers in the college outstandingly use a variety of teaching - learning methods that engage the learner in hands - on end minds - on activities, enabling powerful learning. Examples across teachers are :-

- Experiments and Demonstrations.
- Simulation Techniques.
- Power point presentations by staff and students.
- Movies, documentaries and videos.
- Readings and guided discussions of extracts from books, newspaper clippings and articles from journals and magazines.
- Writing and interpreting case studies, preparing snap shots of exceptional children.
- Conducting sessions / activities based on problem solving techniques.
- Use of anecdotes and illustrations.
- Role - plays, street plays, skits, puppet shows, songs short stories, games etc.
- Encouraging students to participate in workshops and seminars.
- Lectures and workshops by resource people and experts of national and international repute.
- Organization of exhibitions, displays seminars and conferences.
- Digits to exhibitions, filed visits to industries, hotels hospitals and laboratories, old-age homes, orphanages , homes for the destitute women.
- Rural camps, Community projects

and industrial visits, study tour with detailed report presentations. • Planning, conducting and evaluating extension activities for beneficiaries in urban / rural / tribal areas. • Supporting students and staff in making scientific poster or paper presentation in national and international conferences. • Multimedia which is the combination of various digital media types such as text, images, audio and video, in to an integrated multi-sensory interactive application or presentation to convey information to an audience. • Mind maps which helps students to picturize the information and facilitates clear understanding and quick review. • Humor which reduces stress, creates interest and strengthens the relation ship between students and teacher. To facilitate the teaching -learning process and to ensure high quality teaching. The following points are conducted - • Group discussions are carried out for practical subjects so that all teachers are aware of the process and practices of that. • Teachers are involved in the design of the syllabus to ensure their cooperation and motivation. • More than one teacher may take a particular subject based on their expertise. • A bio metric attendance machine helps in monitoring attendance of all teaching and non teaching staff. • Teaching works plans are submitted by all faculty members for each subject at the beginning of the academic year and these are reviewed by the Principal. • A teacher diary is maintained by each staff member which helps in monitoring the work plan. • New faculty and those teaching new courses are oriented and mentored to facilitate professional competence. • Remedial teaching and coaching are provided to improve the performance of the students. • Staff are appointed as mentors for students to facilitate academic and personal problem resolution. • A grievance redressal cell has been established to encourage the expression of concerns related to the teaching-learning process and resolution of the same by the management / Principal / relevant staff. • Meetings are regularly held. • All staff meetings are held once a month to discuss issues pertinent to all staff. • Departments and committee meetings are held twice a month to discuss issues relevant to that department or committee. • Teachers in-charge of various departments meet periodically to discuss the format for providing skills to the students.

3. Titles of the practice - Students Support:- Student welfare and empowerment is the all encompassing goal that the college is constantly striving to reach. Hence all the best practices, be it teaching or administrative are directly or indirectly connected with serving the students in the best possible manner so that they are helped unfold their potential, and become quality individuals, students, family members and citizens. • One of the best practices of our college is the admission policy of our students. Right from its inception, we are committed to embracing diversity. Therefore our motto is to accept students hailing from any religion and belonging to any socio-economic strata of society. Our goal is to empower the students. Some of our students entering our college at the first year level, come from traditional and orthodox backgrounds, and therefore, the college invests time and energy to make them feel that this college is like a second home to them. • Since our college is running the Arts, Commerce, Science and Journalism and its affiliated to the University of Mumbai. We would like to give every one who so desires, an opportunity to be educated in this college. As such, we do not limit our admission only to the cream of the student population. Rather, we absorb, in our college even those who do not have a high percentage but have the passion, Zeal and enthusiasm to learn. We take pride in raising the standards of these students, who otherwise would not get an opportunity to rise in life. • A very personalized approach is used with the students. They are called by their names rather than their roll numbers. When absent, they are expected to inform the coordinator or HOD, not as a disciplinary strategy but also to make them realize that their presence is important to the teacher and to the other students in the class and that they are missed. Phone calls are often made to students. Who have absented themselves / are sick and they are helped and supported by the faculty. • At the Post graduate level, our policy

is to admit only a limited number of students in order to provide individualized attention and effective monitoring required for a high quality education. • If a particular staff is absent for any unforeseen reason on a particular day, the class is not canceled. Instead other teachers are expected to pitch in and take the class so that the students are not inconvenienced. This practice helps students to feel that teachers respect them and their time and teachers to feel that they are all a part of a family, where give and take is inevitable. Recently we have started the policy of recruiting substitute (clock hour basis) teachers to take over the classes of teachers who are on short term leave on account of personal or medical problems. This has helped to provide support to the teacher on leave and above all security to the students whose classes he / she takes. • Students are given an opportunity to attend training sessions, value added courses, workshops, seminars, conferences etc. to enhance their knowledge and skills beyond the scope of the syllabus. • To inculcate in students the joy of reading and to encourage their use of library services. • Industrial visit and sight seeing tours are organized for them so that they can rejuvenate and value with each other. • Alumni get together are organized so that there ample interaction among them with the staff. Those desires of seeking employment are assisted with the same while those who have advanced in their carriers are invited as experts to the college to enlighten students on their area of expertise. • One unique quality of our college is the in faces placed by the management on having a physically appealing college. Students are the recipients of clean and tidy classrooms. Also the management has invested plenty of funds into redeveloping the building, upgrading its labs and equipments / material to provide to the students a high quality education.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

Area of distinctiveness :- Increasing international attention devoted to inclusion is a consequence of globalization, liberalization and democratization. Inclusion is a multidimensional process to enhance Human capabilities, equal opportunities for social, political, economic participation, encouraging social interactions, strengthening the social ties, solidarity, cohesion, integration and opening of the access to participate in all spheres of life. As an educational institution we have staff and students from diverse background with different orientations and capabilities. We have a demographic diversity as the students are hailing from different socio - economic background, come from diverse regions having own language preferences. Especially a large number of students from rural area of Maharashtra in our college and other parts of India. With respect to this 'uniqueness', we are trying to inculcate the value of 'togetherness' among all the members of this institutions by giving space to each and every stakeholder to participate, explore, enhance and attend their full potential, ultimately making society more equitable place. To achieve this vision as set by our institution, every member is participating in own capacity like - 1) Active counseling cell for all the stakeholders. 2) Language lab for the students with different background for sharpening language skills. 3) Mentor for the students. 4) Arts circle for celebrating culture of uniqueness. 5) Special efforts are taken by the faculty members to make the classrooms more vibrant by promoting and encouraging dialogue and participation amongst the students. 6) Informal support group for the differently abled students. 7) Online feedback system allows the students to freely share their individual views about the syllabus,

teaching techniques, classroom environment to improve the learning experience.

8) Management of the intuition with all eagerness and spirit promotes environment for the self and professional development amongst the faculty. 9) Inclusive classrooms (group activities, small research projects, film clubs, discussion groups, engagement with other faculties, exploring new mediums for class teaching). 10) Remedial classes - Remedial classes is taken by subject experts and guest faculty. 11) Value education (National Youth Day, Human Rights Day, Awareness Campaign, Elderly People, Women, Children). 12) Hand holding by the faculty members. 13) Skill development programs for the students. 14) Alumni Association.
